

PTN / WICED 2023 DAY OF SERVICE

This year, PermitTechNation and Women in Code Enforcement and Development will be celebrating their 9th year of partnering for the PTN/WICED ICC Chapters Day of Service held the Saturday prior to the start of the ICC Annual Convention. This annual event is our chance, as part of the ICC Family, to give back to the communities we visit in a meaningful and productive way.

This year, we have the opportunity to give back to two worthy causes, [Habitat for Humanity St. Louis](#) and the [Missouri Veterans Endeavor \(MOVESTL\)](#). This is an ambitious endeavor with the largest number of volunteers needed to date and our goal is to fill every volunteer spot. To accomplish this, **we need you!** Are you ready to join PTN and WICED for this meaningful endeavor? If **yes**, please read the volunteer options below, select a site and join us!
