

CHEMEKETA COMMUNITY COLLEGE

Building Inspection Technology Program

Certificate of Completion (One-Year Certificate)

go.chemeketa.edu/buildinginspection

The Building Inspector certificate provides students with knowledge and skills in commercial and residential building codes that are necessary for entry level inspector positions. Application of code knowledge in the inspection process is stressed throughout the four terms of the certificate program. ***The certificate is designed for students with a diverse construction background looking to move into an entry level inspector position.***

In addition to tuition and universal fees (2021-22 - \$5,330) - estimated costs for students who complete the required courses listed below are: class fee \$980; books \$1,070; and equipment and supplies, \$185. Contact Chemeketa's Financial Aid Office at 503.399.5018 to find out if you qualify for help with these costs (approximate total = \$6,951) - Visit our financial aid web site at <https://www.chemeketa.edu/cost-aid/financial-aid/>

Students may earn a certificate of completion by successfully completing the required 41 credit hours with a grade of "C" or better in all courses:
